Christina, I'm not sure when I can get to this. I'm traveling tomorrow and I need to get some CFAC items done on Friday. (I'm supposed to be off)

If it isn't a hurry that would be better.

These are great Mike! Thanks. Yes, if you have a couple showing veg growth I think that would be great. Maybe one of the tailings pile and impoundment?

Here are two photos I took that may be what he wants. One is from Sheldon Mountain the other looking back from Alexander Ridge.

I have some with grading and grass growth as well if that might help?

I received a call from Justin Franz of the Flathead Beacon who was interested in obtaining some photos of the mine as it looks now. Do either of you have any photos we could share with him? I'll look through my photos as well, but I don't know that I have the most up-to-date photos.
